

TALLAWONG VILLAGE

COMMUNITY CONSULTATIVE COMMITTEE

Deicorp is committed to engagement with the communities we work within and is establishing a community consultative committee (CCC) for the **Tallawong Village** project approved in the Tallawong Station South Precinct.

The Community Consultative Committee is one of the tools we use to encourage and facilitate engagement by community members and stakeholders on issues directly relating to the project.

The NSW Department of Planning, Industry and Environment (DPIE) has appointed Garry West to serve as the Independent Chair and oversee the functions of the CCC. The Chair is inviting nominations from community members and representatives of stakeholders willing to serve on the committee.

We are looking for a mix of people who live in the local area or are representatives of stakeholder groups to join the committee.

THE ROLE OF MEMBERS

Membership and attendance at meetings is voluntary.

Members are expected to contribute constructively to committee discussions, attend forums and share information about the project with the broader community.

HOW TO APPLY

To apply, visit the project portal website **www.tallawongda.northwestvillage.com.au** and download the nomination form.

Closing date 7th October 2021.

For more information, please contact the Independent Chair, Garry West.
