## Apologies:

Anita Catalano	Metro Trains Sydney
----------------	---------------------

## Minutes

1. The meeting opened at 12.05pm and the Chairman welcomed everybody to the inaugural meeting. An acknowledgement of country was given by Mr West before he provided a background to the CCC and its purpose.
2. Sue Lawrence suggested that Blacktown City Council should be represented. Garry mentioned that they felt the burden of responsibility for issues arising would fall to them and they declined to nominate a member. It was agreed that we should continue to seek BCC's involvement through invitations to attend meetings whether they are a formal member or not. This approach was felt

appropriate for various local groups including the Police Commander. It was agreed to invite key stakeholders as appropriate for future meetings.

3. Robert Furolo provided a project overview, detailing the approval process and scope of the Tallawong project, including details of the Community Consultative Strategy and the role of the Project Portal. Questions about the project were asked and answered.
4. The Chairman asked that the details of the CCC membership and meetings be added to the Project Portal. RF agreed to action this.
5. Grant Madsen provided a project update of the project and advised that excavation work and the traffic associated with it would be finished by February. The project would then move to a different phase with increased activity to set the formwork and concrete pours.

GM also mentioned that the erection of the crane would be undertaken in the new year. Members discussed the potential for marking this with an event to include the community.

6. The Chair agreed to distribute a copy of the Community Consultative Strategy, the conditions of consent relating to the CCC and the CCC guidelines.
7. It was suggested a report on the Community Consultative Strategy be provided for the next meeting.
8. Discussion about the timing of future meetings agreed that the meetings should be roughly every 3 months, but this timeline could change depending on the project issues and community expectation.
9. The meeting closed at 1.10pm after a light lunch and refreshments.
10. Next meeting Monday 21 March 2022 (TBC)
